

COMPLETE CABLING EQUIPMENT (PTY) LTD

2 TON COILING MACHINE

The 2 Ton coiling and winding machine is the entry level for automated cable winding and coiling operations. This machine is perfect for operations requiring speed, minimum labour and handling of volume based operations.

The 2 Ton coiling and winding machine allows for the following operations to be executed and would be inclusive of all tooling required to execute operations:

- Winding from drum to drum or drum to coil
- Hydraulic lifting on both ends
- Forward and reverse speed controlling by AC inverter
- Automatic cut out measuring meter

TECHNICAL SPECIFICATIONS

DRUM RANGE	Maximum 2,00 meter diameter X 1,200 meter wide
DRUM WEIGHT	Maximum 2,000 Kg
MACHINE DIMENSIONS	4,50 meter long by 1,40 meter wide by 1,00 meter high
MACHINE WEIGHT	400 Kg
FINISH	Any standard colour

The 2 Ton coiling and winding machine is manufactured on order only. Standard lead-time is four to six weeks.
