

# COMPLETE CABLING EQUIPMENT (PTY) LTD

## MANHOLE ROLLER

Manhole rollers are used to ease tension of cable pulling operations by reducing the drag created when pulling cable into ducts or manholes. The frame is fitted with double swinging rollers to allow the cable or rope to find its natural path. Rollers are available in polyurethane and aluminium. Manhole rollers are manufactured on order only. A standard lead time of 2-3 weeks from receipt of order is applicable subject to quantities and roller selection.

OVERALL DIMENSIONS	1,300 mm X 300 mm X 3000 mm
MAXIMUM CABLE DIAMETER	120 mm Outside diameter
WEIGHT	8,50 Kg
FINISH	Black powder coating

Customers who purchase manhole rollers also look at the following products:

- Swivels
