

COMPLETE CABLING EQUIPMENT (PTY) LTD

WALL CRAWLER

Wall crawlers are manufactured on order only. These rollers are most suitable for use over walls and inside buildings where minimum access is available for pulling cable up various floors or structures. The crawler needs to be fixed to the floor area and suitable holes are provided for this requirement. Rollers are available in polyurethane or aluminium. All roller frames can be modified to suit operations for pulling cable in buildings over walls etc. Roller frames can be electroplated or hot dipped galvanised. The standard finish is a black powder coated frame.

OVERALL DIMENSIONS	1,200 mm x 300 mm
MAXIMUM CABLE DIAMETER	120mm Outside diameter
WEIGHT - POLYURETHANE	17,50 Kg
WEIGHT - ALLUMINIUM	16,00 Kg
