

COMPLETE CABLING EQUIPMENT (PTY)LTD

CABLE PULLING SOCKS

Cable pulling socks are also referred to as cable stockings or cable grips. This is the most efficient equipment to use when pulling cable in trenches, ducts or buildings. Socks are manufactured from high tensile galvanised steel and are available in single eye, double eye or lace up derivatives. All socks can also be supplied in stainless steel and kevlar. We carry stock of the double eye high tensile galvanised steel covering the range of 6 mm outside diameter to 115 mm outside diameter.

Product code	Cable diameter	Weave	Lattice length	Overall length	Break tones
CS21	6 mm – 13 mm	Single	230 mm	305 mm	0,75 Ton
CS22	13 mm – 19 mm	Single	355 mm	430 mm	1,00 Ton
CS23	19 mm – 25 mm	Single	405 mm	510 mm	2,50 Ton
CS24	25 mm – 38 mm	Single	455 mm	610 mm	3,50 Ton
CS25	38 mm – 50 mm	Double	535 mm	735 mm	5,00 Ton
CS26	50 mm – 63 mm	Double	610 mm	865 mm	5,00 Ton
CS27	63 mm – 89 mm	Double	685 mm	990 mm	6,00 Ton
CS28	89 mm – 115 mm	Double	685 mm	990 mm	7,00 Ton
CS29	115 mm – 130 mm	Double	685 mm	990 mm	7,00 Ton
