

## COMPLETE CABLING EQUIPMENT (PTY) LTD

### 2 AND 3 TON CABLE PULLING WINCHES

CCE manufactures a comprehensive range of cable pulling winches required for the installation of power and telecommunication cables where controlled hauling is required. CCE winches offer the following

- Petrol, diesel or electric powered
- Infinitely variable pulling speed in both directions
- Maximum load pre-set valve
- Non-spin hauling rope
- Can be towed with standard LDV
- Powered rope storage drum

CCE Winches are built on a fully roadworthy trailer including lights, reflectors, chevrons, mudguards, screw down rear stabilising legs, wind down jockey wheel, all protected by a canopy with roll-up side curtains. Winches are available in 2 and 3 ton derivatives. Winches are manufactured on order only with a lead time of 4 to six weeks from order.

Customers who purchase cable pulling winches also look at the following products

- Cable drum jacks
- Cable drum trailers
- Cable pulling socks
- Cable laying rollers
- Swivels
